CATALOG OF COPYRIGHT ENTRIES

Third Series

VOLUME 2, PART 6, NUMBER 1

Maps

JANUARY–JUNE

1948

COPYRIGHT OFFICE
THE LIBRARY OF CONGRESS
WASHINGTON 25, D. C.

PREFACE

WITH the initiation in 1947 of the Third Series of the *Catalog of Copyright Entries*, an enlarged format and other changes designed to increase and extend the usefulness of the compilation were adopted. Additional features have been added in most parts of this second volume. Inquiries, suggestions, and comments on all details of the *Catalog* are solicited and should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

Contents.—This part of the *Catalog of Copyright Entries* contains an alphabetical list of maps registered in the Copyright Office from January 1, 1948 through June 30, 1948. Renewal registrations in this class made in this period are listed in Part 14A of the *Catalog*.

Arrangement and Entry.—The maps listed in this catalog are entered under the name of the "authority" (that is, the name of the person, firm, institution, or other agency primarily responsible for the content of the map), which term is not always synonymous with the term "author" as used in the Copyright Act. They are arranged alphabetically, together with cross references from the geographical areas represented by the maps, and from copyright claimants, editors, compilers, etc. Under the authority, the main entry includes the title, edition, and the scale as it appears on the map. When two maps are printed on the face and back of a sheet, the title of the verso map is given in brackets as a part of the entry title, if the map is included in the copyright claim. If not, and the verso map is of equal importance to the face map, its title is given in a note immediately preceding the statement of copyright facts for the purpose of describing the deposit. If the verso map is separately claimed it has its own entry. When there are two or more verso maps, the number only is given.

Area Cross References.—The area headings used in this catalog are those of the name of the largest geographical or political unit enclosed within the borders of the map. When the borders of the map do not coincide in any way with a single geographical or political unit, the name of the most significant unit is used in the heading. When the map contains three or more States comprising part of one of the major geographical divisions of the United States one of the following headings is used: "New England, Middle States, South Atlantic States, North Central States, South Central States, Mountain States, and Pacific States."

Copyright Data.—The portion of the entry giving the facts of copyright registration begins with the copyright symbol © and consists of the name of the copyright claimant, date of publication as given in the copyright application, and the registration number. The abbreviation "1c" preceding the date, which indicates that one copy only has been deposited, shows also that the map was published outside the United States, or, when used in an entry bearing a B5 registration number, that it appeared as a contribution to a newspaper or periodical published in the United States.

Abbreviations.—Definitions are not given for abbreviations in common use and included in standard reference works. The following abbreviations are used in the *Catalog of Copyright Entries* with the meanings shown: 1c—one copy deposited; a. k. a.—also known as; d. b. a.—doing business as; t. a.—trading as.

Deposit of Copies.—In the case of every copyright entry listed in the *Catalog*, the deposit of copies (or copy) as required by title 17, U. S. C., secs. 12 and 13 has been made.

Authority.—The *Catalog of Copyright Entries* is published by authority of title 17, U. S. C., secs. 210 and 211. Section 210 provides that the *Catalog* "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Organization of the Catalog.—This issue of the *Catalog* is part of volume 2 of the third series. The parts are numbered according to the alphabetical sequence of classes as listed in title 17, U. S. C., sec. 5. Letters are added to the part numbers to indicate subdivisions.

The classes of material principally contained in each part are listed, together with their respective symbols, under the title of the part in the table which follows. In each case, the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added

by the Copyright Office for purposes of statistical analysis of registrations. The symbols R and RR do not represent classes designated by the Copyright Act, but have been adopted by the Copyright Office to distinguish renewal copyright registrations. Each part may also contain registrations made under other symbols if the subject matter or type of material of these registrations is similar to that generally included in the part.

Publication and Subscription.—The annual subscription price for all parts of the complete yearly *Catalog of Copyright Entries* is $20, payable in advance to the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

Each part of the *Catalog* is published in two semiannual numbers covering, respectively, the periods January-June and July-December. The prices given in the table are for each semiannual number. Orders for the complete *Catalog* or any of its parts should be addressed to the Superintendent of Documents.

COPYRIGHT REGISTRATIONS FOR MAPS

January-June 1948

Class F—Maps published in the United States	760
Maps published outside the United States	4
Total	764

The above figures show the registrations for maps for January-June 1948, but do not necessarily represent the exact number of entries in this issue of the *Catalog*.

TABLE OF CATALOG ORGANIZATION

		Price per semiannual issue
Part 1A	BOOKS	$1.50
	A Books and selected pamphlets.	
	AF Books in foreign languages published abroad.	
	AI Books in the English language first published abroad.	
Part 1B	PAMPHLETS, SERIALS AND CONTRIBUTIONS TO PERIODICALS	1.50
	AA Pamphlets and serials, also books not included in Part 1A.	
	B5 Contributions to periodicals.	
Part 2	PERIODICALS	1.00
	B Periodicals.	
Parts 3 & 4	DRAMAS AND WORKS PREPARED FOR ORAL DELIVERY	1.00
	C Lectures and other works prepared for oral delivery.	
	DP Published dramatic and dramatico-musical works.	
	DU Unpublished dramatic and dramatico-musical works.	
Part 5A	PUBLISHED MUSIC	1.50
	EF Musical compositions published abroad.	
	EP Musical compositions published in the United States.	
Part 5B	UNPUBLISHED MUSIC	1.50
	EU Unpublished music.	
Part 6	MAPS	.50
	F Maps.	
Parts 7–11A	WORKS OF ART, REPRODUCTIONS OF WORKS OF ART, SCIENTIFIC AND TECHNICAL DRAWINGS, PHOTOGRAPHIC WORKS, PRINTS AND PICTORIAL ILLUSTRATIONS	1.00
	GP Published works of art and designs for works of art.	
	GU Unpublished works of art and designs for works of art.	
	H Reproductions of works of art published in the United States.	
	HF Reproductions of works of art published abroad.

CATALOG OF COPYRIGHT ENTRIES

Third Series

VOLUME 2, PART 6, NUMBER 2

Maps

JULY–DECEMBER

1948

COPYRIGHT OFFICE
THE LIBRARY OF CONGRESS
WASHINGTON 25, D. C.

PREFACE

WITH the initiation in 1947 of the Third Series of the *Catalog of Copyright Entries*, an enlarged format and other changes designed to increase and extend the usefulness of the compilation were adopted. Additional features have been added in most parts of this second volume. Inquiries, suggestions, and comments on all details of the *Catalog* are solicited and should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

Contents.—This part of the *Catalog of Copyright Entries* contains an alphabetical list of maps registered in the Copyright Office from July 1, 1948 through December 31, 1948. Renewal registrations in this class made in this period are listed in Part 14A of the *Catalog*.

Arrangement and Entry.—The maps listed in this catalog are entered under the name of the "authority" (that is, the name of the person, firm, institution, or other agency primarily responsible for the content of the map), which term is not always synonymous with the term "author" as used in the Copyright Act. They are arranged alphabetically, together with cross references from the geographical areas represented by the maps, and from copyright claimants, editors, compilers, etc. Under the authority, the main entry includes the title, edition, and scale. The word "scale" is followed by the representative fraction if it can be ascertained. The linear scale as it appears on the map follows the representative fraction. When two maps are printed on the face and back of a sheet, the title of the verso map is given in brackets as a part of the entry title, if the map is included in the copyright claim. If not, and the verso map is of equal importance to the face map, its title is given in a note immediately preceding the statement of copyright facts for the purpose of describing the deposit. If the verso map is separately claimed it has its own entry. When there are two or more verso maps, the number only is given.

Area Cross References.—The area headings used in this catalog are those of the name of the largest geographical or political unit enclosed within the borders of the map. When the borders of the map do not coincide in any way with a single geographical or political unit, the name of the most significant unit is used in the heading. When the map contains three or more States comprising part of one of the major geographical divisions of the United States one of the following headings is used: "New England, Middle States, South Atlantic States, North Central States, South Central States, Mountain States, and Pacific States."

Copyright Data.—The portion of the entry giving the facts of copyright registration begins with the copyright symbol © and consists of the name of the copyright claimant, date of publication as given in the copyright application, and the registration number. The abbreviation "1c" preceding the date, which indicates that one copy only has been deposited, shows also that the map was published outside the United States, or, when used in an entry bearing a B5 registration number, that it appeared as a contribution to a newspaper or periodical published in the United States.

Abbreviations.—Definitions are not given for abbreviations in common use and included in standard reference works. The following abbreviations are used in the *Catalog of Copyright Entries* with the meanings shown: 1c—one copy deposited; a. k. a.—also known as; d. b. a.—doing business as; t. a. —trading as.

Deposit of Copies.—In the case of every copyright entry listed in the *Catalog*, the deposit of copies (or copy) as required by title 17, U. S. C., secs. 12 and 13 has been made.

Authority.—The *Catalog of Copyright Entries* is published by authority of title 17, U. S. C., secs. 210 and 211. Section 210 provides that the *Catalog* "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Organization of the Catalog.—This issue of the *Catalog* is part of volume 2 of the third series. The parts are numbered according to the alphabetical sequence of classes as listed in title 17, U. S. C., sec. 5. Letters are added to the part numbers to indicate subdivisions.

The classes of material principally contained in each part are listed, together with their respective symbols, under the title of the part in the table which follows. In each case, the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis of registrations. The symbol R does not represent a class designated by the Copyright Act, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. Some parts also contain registrations made under other symbols if the subject matter or type of material of these registrations is similar to that generally included in the part.

Publication and Subscription.—The annual subscription price for all parts of the complete yearly *Catalog of Copyright Entries* is $20, payable in advance to the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

Each part of the *Catalog* is published in two semiannual numbers covering, respectively, the periods January-June and July-December. The prices given in the table are for each semiannual number. Orders for the complete *Catalog* or any of its parts should be addressed to the Superintendent of Documents.

COPYRIGHT REGISTRATIONS FOR MAPS

July-December 1948

Class F—Maps published in the United States	1,021
Maps published outside the United States	1
Total	1,022

The above figures show the registrations for maps for July-December 1948, but do not necessarily represent the exact number of entries in this issue of the *Catalog*.

TABLE OF CATALOG ORGANIZATION

		Price per semiannual issue
Part 1A	BOOKS	$1.50
	A Books and selected pamphlets.	
	AF Books in foreign languages published abroad.
